

Results of Eystrain

If strained eyes are not relieved within a short time by proper glasses permanent injury will result and the sight can never afterwards be restored to what it should have been. While the eyes will stand a great amount of misuse if misused too long there is no way to make them "as good as new."

One of the most insidious and least often recognized results of eyestrain is the waste of nervous energy. This drain on the nerves leads to undue fatigue and may weaken the entire system, affect the general health and be the indirect cause of troubles in various other organs.

COUNCIL DEFERS ACTION ON GAMBLING PETITION

QUESTION WILL NOT BE CONSIDERED UNTIL THE FIRST MEETING IN MAY

This Will Give Those Opposed to the Cigar Store Games a Chance to Make an Issue in the City Election.

By a majority vote Tuesday evening the city council deferred action on the gambling petition until the first meeting in May. In doing this the council has put up to the voters of the city the question of whether card games as now played in the cigar stores shall or shall not be tolerated. In other words it gives those who signed the petition or who are opposed to these card games an opportunity to make this mill class of gambling an issue in the coming municipal election. This relieves the councilmen of some embarrassment—they did not like the idea of ignoring a petition signed by seven hundred—principally women—neither did they care to go against the wishes of apparently a big majority of the male residents of the city who do not look upon these games as harmful, and believe that under present conditions they should be tolerated.

Bridge Proposition Ready.
The petition asking for an election to vote bridge bonds in the district south of the river, together with a bond insuring the payment of the election costs in the event the proposition fails to carry, has been filed with the county clerk, together with the notice calling the election. These will be submitted to the commissioners in a day or two, and the election will be called. The proposition asks for \$10,000, which is one fourth of the estimated cost of the bridge to be erected south of town; North Platte city is expected to vote \$10,000 and the remaining \$20,000 will come from the state aid bridge fund.

The city will probably vote on the proposition at the regular election in April.

Went Bridge at Dexter.
Residents living south of the South Platte river in the west part of Lincoln county and the east part of Keith, are making a move toward securing a bridge across the river at Dexter.

To meet the necessary cost it is proposed to form two bridge districts, one in Lincoln the other in Keith. The district in Lincoln county would include nearly three townships, extending from the North Platte river south to the north tier of sections in Wallace precinct and running east from the county line to a point a short distance west of Sutherland. This includes between the rivers quite a body of land that has already been bonded for two bridges, one north the other south of Sutherland.

Checker Tournament.
A checker tournament in which the opposing teams will be North Platte and Stapleton men, will be played at the Huffman cigar store next Monday evening.

Checker players are requested to meet at the Huffman store Saturday evening so that teams may be selected and the games arranged.

The tournament is attracting much attention among the local checker players.

With farm products selling at such altitudinous prices one would think that the demand for farm land would be very brisk. However, the reverse is true. Real estate dealers say there is absolutely nothing doing in their line in Lincoln county.

West of here in Keith, Deuel and Cheyenne counties many sales of farm land are reported.
